TO THE PUBLIC.

The sheriff has notified an election for directors of schools under the law by which one goes out every year, and a successor to hold his office for three years is to be selected. In the civil districts of the county, generally, I have no doubt the matter will be duly attended to without suggestions from me. As, however, the city of Memohis lies in the Fifth, Fourteenth and Fifteenth Civil Districts, and all the citizens within as well as without these districts are entitled to vote, I take the liberty of calling especial attention to the matter. There having been no nominations by either party, the names of candidates may be wholly omitted from the ticket of one party and placed on the other, and aresult be had in consequence which is anything but the true choice of the people. There is but one director to elect from each Civil District, and those less than each Civil District, and those Bouquers and Cur Flowers at Craig's. malified to vote for other offices may for this, so that the names for Il offices may be on the same tickets for the several districts. I will add that the late directors of the three districts are W. B. Waldron, of the Fifth Dis-trict, W. B. Marsh, of the Fourteenth, and A. Morenead, of the Fifteenth, all excellent men, whom, in my view, we cannot do cetter than reselect. cannot do oetter than re-elect Superintendent Shelby County,

Hadden the public peace, and the care and safety of the lives and property of the citizens. We have every faith in the zeal and fidelity of Captain Athy, and believe he will leave nothing undone, as far as in his power, to preserve the public peace on Thursday; but we submit that the force under his command is too small for the suppression of any serious outbreak or to suppression; cone. break or to successfully cope with any violent emergency. Let his force be in-creased by a special organization of two hundred men. Let these be distributed at the several polls in the city, and thus we take prudent means of preventing any breach of the public peace or any violence to any voter, as well as hold in check the ruffians, whether black or white, homemade or imported, whose mission seems to be that of violence and law-breaking.
